Description

The membrane has two different properties. Hydrophobic and hydrophilic.  
 The Hydrophobic membrane is chemically resistant to all solvents, acids and bass. The membrane is very low in extractables and has an excellent thermal stability.  
 The hydrophilic membrane is compatible with water solution.  
 It is imported for some leading company who is well known in producing membrane. PTFE syringe filter has 3 kind of diameters, 13mm, 25mm and 30mm.  
 It is cut into some disc membrane that guarantee exceptional integrity when filtering some sample. Then through into non-gap sealing, virgin medical PP material is placed to contain all the disc membrane.  
 It has superior performance to prevent leak of sample solvent and can promise membrane area being used in a large filtration area.

Technical specifications

Diameter	13mm	25mm	30mm
PH	2.0-13	2.0-13	2.0-13
Maximum Pressure	100psi	100psi	100psi
Holdup volume (ul)	<10	<100	<200

Item	Description	Packaging (pcs/pk)	
<b>PTFE Syringe Filter (Hydrophobic)</b>			
FBS13PTFE022H	Pore:0.22µm	Diameter: 13mm	100
FBS13PTFE045H	Pore:0.45µm	Diameter: 13mm	100
FBS25PTFE022H	Pore:0.22µm	Diameter: 25mm	100
FBS25PTFE045H	Pore:0.45µm	Diameter: 25mm	100

FBS30PTFE022H	Pore:0.22µm	Diameter: 30mm	100
FBS30PTFE045H	Pore:0.45µm	Diameter: 30mm	100
<b>PTFE Syringe Filter (Hydrophilic)</b>			
FBS13PTFE022L	Pore:0.22µm	Diameter: 13mm	100
FBS13PTFE045L	Pore:0.45µm	Diameter: 13mm	100
FBS25PTFE022L	Pore:0.22µm	Diameter: 25mm	100
FBS25PTFE045L	Pore:0.45µm	Diameter: 25mm	100
FBS30PTFE022L	Pore:0.22µm	Diameter: 30mm	100
FBS30PTFE045L	Pore:0.45µm	Diameter: 30mm	100

FILTERBIO specializes in manufacturing quality syringe filter ptf of different types among those famous such manufacturers and suppliers in China. With years' experience of supplying syringe filter ptf service, you can rest assured to buy syringe filter ptf made in China with our factory.
